

Dining places on campus sometimes lose students' order slips, depriving them of a meal and a meal swipe which are limited

From the Restaurant's view

Digital Solutions

Someone's job at the establishment is to make sure all orders are completed and handed out via app

Free app

Completely digital- no lost slips

Benefits to encourage each establishment to closely follow apps individual steps of order

Puts pressure on the workers

partner with grubhub

Notifies student accurately at each step of order- order submitted, started, done, handed out

Notifications

Notification of when a dining place is full or has high traffic

Show how many orders are on the waitlist before yours

Estimated wait time at each restaurant

Notify when their food is ready

Features

reviews so students can comment on how accurate any establishment at completing order in estimated time

If an order has not been started yet, allow for refund

Sort based on the type of food you can order

Sort based on restaurant you ordered from

Have amount the student has in their account

Have a place for feedback

Time limit on how long you can wait for your food after it is finished

Money/ Sponser

Cooperate with the campus

Have campuses sponser

Option to refund a lost meal swipe or meal plan dollars in case of a missing meal

Could advertise this during orientation
